

PRIYANKA R

Angular Developer • Full Stack (Java, Spring Boot)
priyankaiirt@gmail.com | 8778015851 | Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Full Stack Developer with 5 years of experience specializing in Angular front-end development, backed by strong Java and Spring Boot backend expertise. Proven track record architecting and delivering production Angular applications, including hybrid mobile apps with Ionic, state management with NgRx/RxJS, and reusable component libraries with Angular Formly. Skilled across the full development lifecycle, from API design to responsive, component-driven UI implementation.

TECHNICAL SKILLS

Angular & Frontend: Angular, Ionic, NgRx, RxJS, Redux, Angular Formly, Angular Reactive Forms, TypeScript, JavaScript, HTML, CSS, Bootstrap, Kendo UI, React, Formik
Backend: Java, Spring Boot, Spring Reactive, Groovy, ASP.NET Core
Database: MySQL, Postgres, Neo4j, MongoDB
Cloud / Architecture: AWS, Azure, Microservices
Tools: Jira, GitHub, Bitbucket, IntelliJ IDEA, Visual Studio

EXPERIENCE

Software Engineer | *Provility Software Solutions, Chennai, Tamil Nadu* **Oct 2021 – Present**

- Built and maintained production Angular and Ionic applications, delivering rapid, cross-platform (web + iOS/Android) experiences.
- Developed scalable front-end architecture using Angular, TypeScript, RxJS, and Redux/NgRx, integrated with Java, Spring Boot, Groovy, and .NET backend services.
- Collaborated using Jira, GitHub, and Bitbucket in an Agile development and issue-tracking workflow.

KEY PROJECTS

RoboGebra | *AI-driven math learning platform — Angular, Ionic, Java, MongoDB.* **Oct 2024 – Present**

- Built the Ionic-based hybrid mobile app (iOS/Android) from the existing Angular codebase, extending the platform to a cross-platform mobile experience.
- Architected and delivered a personalized Angular learning dashboard, integrating progress analytics, learning timelines, and both detailed and short-form answers.
- Designed and implemented the Angular Study List module, enabling students to create, organize, and track academic goals with real-time data sync across the app.
- Engineered the interactive Angular Quiz Module, supporting dynamic questions, instant evaluation, solution walkthroughs, and seamless integration with AI explanation services.
- Implemented real-time mathematical computation and visualization in Angular, allowing users to modify values and instantly view results.
- Developed an advanced AI-powered math explanation engine, generating step-by-step reasoning, formula breakdowns, and bilingual (Tamil/English) explanations.

Subsea | *Marine equipment & operations management platform — Angular, .NET, Docker, Azure* **Apr 2024 – Sep 2024**

- Used Kendo UI Grid within Angular to implement complex UI functionality, enhancing user experience and data management.
- Designed and developed dynamic Angular category and subcategory management features for flexible configuration of subsea equipment and tools.
- Implemented a new Schedule-Manager module with an Angular front-end and .NET backend APIs for seamless integration.
- Fixed production functionality bugs across the Angular application, ensuring smooth operation and reliability.
- Assisted in refining the overall architecture, focusing on modularity and reusability to support future expansions.

Backoffice UI Angular Version Migration | *Angular.* **Feb 2024 – Mar 2024**

- Migrated four repositories to Angular version 16, including the Ticketing web application (v2→16) and three SSG web plugin app repositories (v9/v4→16).
- Ensured a seamless transition through meticulous testing, minimizing disruption to existing features while modernizing performance.

EasyVisa | *Visa management system for attorneys — Angular, Grails, Groovy, Postgres, Neo4j.* **Nov 2021 – Jan 2024**

- Developed custom Angular components using Angular Formly and built extensive nested forms with Angular reactive forms.
- Implemented the full Angular document portal module, featuring multiple accordion panels for uploading documents.
- Customized the image cropper library for profile image usage and migrated the app to a newer Angular version for improved performance and stability.
- Created reusable Angular components used across multiple modules and wrote unit test cases for all UI components and services.
- Assisted in documenting software specifications and user manuals.

CORE STRENGTHS

- Deep expertise in the Angular ecosystem: component architecture, state management (NgRx/RxJS/Redux), reactive forms, and hybrid mobile development with Ionic.
- End-to-end ownership of features, from API design and database schema to polished, responsive Angular UI.
- Strong debugging and root-cause analysis across full-stack codebases, including legacy Angular framework migrations.
- Effective collaborator on cross-functional teams using Agile workflows, Jira, and Git-based version control.

ACADEMICS

- B.Tech, Information Technology — Anna University, Institute of Road and Transport Technology, Erode — 2020 — 77.1%
- 12th, State Board — SRV Girls Higher Secondary School, Namakkal — 2016 — 85.3%
- 10th, State Board — SRV Girls Higher Secondary School, Namakkal — 2014 — 94.4%

LANGUAGES

- English — Professional working proficiency
- Tamil — Native proficiency
